

REST API Documentation

The API provided can be accessed at the following location:

<https://music.musicaudience.info>

All API calls must be made using the provided API key as either a query string parameter or as a header.

Example query string call where the API key was 'xxx' (the actual key will be provided in the email):

`/api/v1/music/artists?q=queen&apikey=xxx`

Example header call:

Authorization: apikey xxx
